- HD-5050PRO is not compatible with VIXIA HF20/21, LEGRIA HF20/21.

- The built-in flash cannot be used when a conversion lens is attached. Otherwise, it will create a shadow of the lens on the picture.

\* The size of width captured on full LCD screen in max.telephoto zooming.

\*\* A 52-37mm adapter ring is already mounted on the HDP-2800ES originally and you can mount it directly by screwing onto the camera lens.

\*\*\* The ' vignetting ' effect may appear even set at the widest range of the zoom lens. If you do not like to have the ' vignetting ' effect, zoom the camera lens slightly towards telephoto side.

\*\*\*\* The 5x zoom compatibility mentioned above is based on the actual test data made with the under 10x zoom HD camcorder, and depending upon the models of camera lens you use, effective zooming may become less than 5x.
